

Learning from each other

AFMC – CAME – CFPC – MCC – RCPSC

2005 Medical Education Conference

April 30th to May 4th

Saskatoon, Saskatchewan, Canada

Conference Goal:

To enhance medical education “best practices”: Learning from each other

Objectives:

- To facilitate the integration of adult education principles from medical school to practice
- To develop curricular and evaluation strategies for competency based medical education
- To foster dialogue and collaboration around medical education and continuing professional development to address priority Canadian health needs

3 Plenary Sessions:

- Generalism vs. Superspecialization: Can One School Support Both?
- Scholarship in Education
- Reflective Practice: Broadening Our Perspectives

4 Facilitated Poster Sessions:

- Distributed Medical Education: Programs and Experience
- Issues in Medical School Admissions and Environment
- Generalism in Medical Education and Medical Students Choices
- Issues in Postgraduate Medical Education

Post Conference Activities:

- MCC Round Table Discussion on Objectives
- Workshop for Teachers of IMGs – Piloting Teaching Modules
- 2 CAME Post-conference workshops

Other activities:

- 27 Workshops
- 40 R&D Presentations
- 61 Posters
- CAME Awards Luncheon
- AFMC Awards Luncheon
- Social Event
